09/10/2019		General Motors	Manufacturer Safety recall issued - NHTSA# 19V647 - Recall #N192263741 - RELAY FUSE BOX BOLT - Status: Remedy Available Locate an authorized General Motors dealer to obtain more information about this recall. - Learn more about this recall

Description: Isuzu Motors Limited has decided that a defect, which relates to motor vehicle safety, exists in certain 2017-2019 model year Chevrolet Low Cab Forward 3500/4500/6500XD medium duty truck vehicles. In some of the affected vehicles, the power supply bolt in the relay box may not have been properly tightened during harness production at the supplier.

This may lead to melting of the power wire and/or a loss of electrical power to the vehicle, which can lead to an engine stall. If the bolt is loose, the vehicle could lose electrical power and stall while being driven, increasing the risk of a crash.

Remedy: To correct this condition, the relay box power supply bolt will be inspected and torqued in all affected vehicles. During the inspection, the harness and relay box will be inspected for damage, and any excess insulation. If there is excessive insulation, the bolt will be removed, the excessive insulation will be trimmed away, and the bolt will then be torqued to the appropriate specification. If the harness or relay box is found to be damaged it will be repaired or replaced.

Glossary

First Owner

When the first owner(s) obtains a title from a Department of Motor Vehicles as proof of ownership.

Manufacturer Recall

Automobile manufacturers issue recall notices to inform owners of car defects that have come to the manufacturer's attention. Recalls also suggest improvements that can be made to improve the safety of a particular vehicle. Most manufacturer recalls can be repaired at no cost to you.

Ownership History

CARFAX defines an owner as an individual or business that possesses and uses a vehicle. Not all title transactions represent changes in ownership. To provide estimated number of owners, CARFAX proprietary technology analyzes all the events in a vehicle history. Estimated ownership is available for vehicles manufactured after 1991 and titled solely in the US including Puerto Rico. Dealers sometimes opt to take ownership of a vehicle and are required to in the following states: Maine, Massachusetts, New Jersey, Ohio, Oklahoma, Pennsylvania and South Dakota. Please consider this as you review a vehicle's estimated ownership history.

Title Issued

A state issues a title to provide a vehicle owner with proof of ownership. Each title has a unique number. Each title or registration record on a CARFAX report does not necessarily indicate a change in ownership. In Canada, a registration and bill of sale are used as proof of ownership.
